

# TOWNSHIP RATE CARD

The following rates reflect the cost for West Chester Township personnel working at your event. The number of safety personnel required will be dictated by the size and scope of your event and by the demands of the event as determined by West Chester Township police and fire departments.

## **Police Department**

Police officers' rates reflect an off-duty detail rate and are paid directly to the officer. Individual events may be determined by the police department to require a different level of service, which may alter pricing. Pay rates except as provided by contract or agreement with the F.O.P. shall be set by the Chief of Police. Pay rates are set by the primary responsibility of the service requested. Minimum rates are:

- Police Officer security: \$45.00 per hour
- Police Officer traffic: \$50.00 per hour
- Supervisor security (when 4 or more officers assigned): \$50.00 per hour
- Supervisor traffic (when 4 or more officers assigned): \$55.00 per hour
- Patrol car: \$10.00

*A traffic detail is defined as the primary responsibility being the regulation of vehicular traffic. Some security details may involve limited time on a traffic post. If a detail is worked on New Year's Day, Memorial Day, Independence Day, Labor Day, Thanksgiving Day or Christmas Day, the above rates will be calculated at time and one half.*

Officers working off duty details shall receive a minimum of three hours compensation at the appropriate detail rate. An employer who cancels a detail must notify the officer assigned at least two hours before the start time. If the employer fails to make this notification the officer shall receive the three hour minimum. Supervisors will not be compensated at the supervisor rate if filling a position intended for a police officer.
